

STRIKERS KILLED FIGHTING POLICE IN BUDAPEST

Several Dead and Many
Wounded in Clash Over Elec-
tion of Parliament Speaker.

BUDAPEST, Hungary, May 22.—Sharp battles between the police and strikers have been frequent all over the city today. A number of strikers and one policeman were killed and many of the police and strikers wounded, twenty-five of the latter severely.

Essentially all of the trade unionists in Budapest, with the exception of municipal employees, struck this morning as a result of a resolution passed last night by the Socialist Union, which proclaimed a general strike as a protest against the election of Count Tisza as speaker of the lower house. Count Tisza is a strong opponent of universal suffrage.

Fifty thousand workmen assembled early today in the streets leading to Parliament Square, all the approaches of which were guarded by strong columns of police.

The strikers, finding their efforts to obtain possession of Parliament Square unavailing, started wrecking windows and street lamps and destroying goods displayed in the shop windows. Then they began storming the police, who drove them off repeatedly by charging them with their clubs.

Several of the street car lines have been suspended since morning. The strike has been only partially successful, many of the factories continuing to work under the protection of detachments of police.

Another violent fight between the police and the strikers occurred near the Parliament house this afternoon. One strikers policeman was killed and another fatally hurt. There were also several fatalities among the strikers as well as many wounded.

The work wrecked a considerable amount of business property and set fire to some street cars.

Most of the stores have been closed and troops are stationed in the principal streets, but hitherto the strikers have not been able to enter the city of the fighting developing on the police.

DETECTIVES TRAP THREE SUSPECTS OF BAND OF BURGLARS

The arrest of three young men charged with burglary early today after an exciting chase will clear up the mystery of several robberies in the past few weeks, according to the police.

The men arrested are Walter Dietrich, who says he is an elevator man; Francis Kelley, a plumber, and Francis Kelley, a plumber, and Francis Kelley, a plumber.

The arrests were made in a raid shortly after 3 A. M. by Detectives Kenny and Brennan of the West 23rd street station. The detectives had been chasing the three men for some time. They lost the trail a week ago and did not pick it up again until the day the men were seen to enter No. 21 West 23rd street last night.

Following the robbery of the apartment of Paul Plimmett of No. 21 West 23rd street, where \$1,000 worth of jewelry and furnishings had been stolen.

After midnight the other two men entered the house the detectives were watching. They were seen to enter the house and to go to the third floor of the house. They were seen to enter the house and to go to the third floor of the house.

Kelley was seen leaving across the rear foot air shaft and landing on the roof of the third floor of the house. He was seen to enter the house and to go to the third floor of the house.

Detective Kenny took the same leap and was held up by the Greys, who carried the other two men, saying he had caught a burglar. When Kenny could get away Kelley was out of sight. He was caught later hiding under the stairs in the front hallway. The two remaining men attempted to run down the fire escape, but on being seized by the waiting policemen below returned and surrendered. More than \$1,000 worth of plunder was recovered.

Steam Boiler Kills Man.

A springing steam boiler in an excavation at the northwest corner of Fourth avenue and Broadway street caused the death of a man today. The man, who was named John J. Kelly, was killed by a piece of the boiler which fell on him.

The man was working on the excavation of the site of the new building at the corner of Fourth avenue and Broadway street. The boiler was part of the machinery used in the excavation.

The man was killed by a piece of the boiler which fell on him. The boiler was part of the machinery used in the excavation.
